

# Roll Prongs

Type RPC70-2800

## Type RPC

Carriage mounted roll prongs suitable for carpet, vinyl, fabric, etc. The most common mounting - Class 2 - features a spring loaded locating pin for easy installation. Windows through the backing plate provide optimum vision, while the lost load is reduced to only 100mm. For Class 3 and 4 mounting please ask for drawings of mounting plate design and specs. High tensile prongs are used throughout.
